## WHAT IS **BLAST**?

St. Mark's **BLAST** is a free Bible-based learning program where children learn the basics of the Christian faith in a fun and highly-engaging environment.

The biggest gift you can give your child is to teach them about God's love.

## HOW DOES IT WORK?

St. Mark's has transformed their classrooms into exciting, *multi-sensory adventure stations* that allow children to experience the Bible story through art, drama, games, cooking, and audiovisual presentations.

Children rotate through these stations while exploring the same story or theme for 3 to 5 weeks. Instead of just reading the story, children experience the story with all their senses.

## WHY DOES IT WORK?

Children love **BLAST** because they are actively involved in their learning. They thrive in the dynamic and creative environment plus the built-in repetition of the story helps them learn more than ever!

## WHY IS THIS IMPORTANT FOR MY CHILD?

Research tells us that children's most significant moral & faith development happens before age nine.

At St. Marks, we teach our children the stories of the Bible in order for them to have tools to grow toward a more mature Christian faith.

We believe it is through these stories that we learn of humanity's struggle to know God and how God wants us to live.
